

HORIZON LEEDS

BROADCAST STUDIO

Technology's role in ensuring people stay connected

WELCOME TO HORIZON LEEDS

Horizon Leeds is a unique, independent, award-winning conference and meeting space that offers in person, hybrid, and virtual events.

The venue is owned by NHS Confederation, which means that all the profit Horizon Leeds generates is reinvested to support the Confederation's work to support NHS members to improve care for patients and the public across the whole healthcare system in England, Wales, and Northern Ireland.

Our excellent facilities, alongside our knowledgeable and dedicated event planners, have earned us an enviable reputation for helping clients host their perfect event. Whatever your vision, our team is here to make the planning process as smooth as possible, resulting in a fully accessible event that will be sure to be remembered.

We are a venue team who are fully focused on your event objectives and ensuring we can provide bespoke and creative events centred around delegate engagement and customer service. We believe that this approach is the reason why....

100% of clients have said that they would use Horizon Leeds for their events in the future.

100% of clients would recommend Horizon Leeds to a colleague.

There's no one size fits all at Horizon Leeds. It's all about what you want and how we can make it happen, together.

BROADCAST STUDIO

Technology's role in ensuring people stay connected

Although the demand has now returned to in-person events, today, a blended approach is hugely beneficial and an integral communication tool for many organisations.

Therefore, we have rebranded our Virtual & Hybrid Streaming Studio to the Broadcast Studio and given it a permanent home at Horizon Leeds. Ensuring that, whatever your sector and whatever happens, we're ready when you are!

What's more, you'll be provided with an onsite tech team, who are leading experts in the field with more than 15 years' experience in delivering virtual and hybrid events, to support you every single step of the way.

To discover more about our state-of-the-art streaming studio, simply call a member of the team at Horizon Leeds on **0113 225 3190** or email: sales@horizonleeds.co.uk

HOW CAN THE **STUDIO** BE USED?

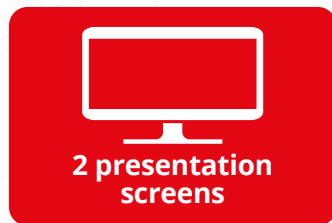

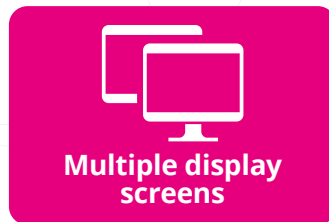

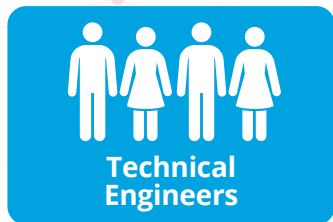

The state-of-the-art, stand-alone broadcast studio provides space for up to four presenters live in the studio at one time and endless number of people off site. This allows for the ability to share their message to delegates all over the world; think branded newsroom studio, with fully interactive capability.

Seamless transitions throughout your event from speaker to panel or presentation will be overseen by dedicated on-site technical support, supplied by Firefly Audio Visual Solutions as part of the package. The studio consists of three LED screens so content, speakers and audience can be shown at the same time, whilst the chair can be guided through the event via two comfort monitors.

With multi camera set up, earpieces, control room and professional level sound and lighting equipment, our event planners can build a fully branded event which can be streamed and recorded on a wide variety of platforms.

Types of events, as an example:

- Education events where multiple speakers are engaging with an international audience
- Training courses
- Awards ceremonies
- Internal staffing messaging, especially when staff are all over the world.

WHY CHOOSE OUR BROADCAST STUDIO

Simple, sleek and streamlined – live streaming can be a bit daunting, we're here to make your life easy and guide you through the process. We'll help tailor the experience and harness the familiarity of well-known streaming platforms, so your attendees can navigate around the software with ease, but now with the advantage of a high-end streaming studio backdrop.

High production quality – To ensure a polished technical production that works for your brand, Horizon Studio will supply the content to your streaming account and push the stream through your chosen platform. Unsure which platform to choose? We can help. Your chosen platform may have some restrictions when it comes to the finesse of the product. The team will work with you to ensure your stream is delivered in the highest quality your platform can handle.

It's all part of the package – laptops, lapel/ headset mics and all technical equipment are provided! That way we can make sure they're clean and sanitised for your protection and it takes the stress out of ordering extra or bringing heavy equipment to site.
